

Don't Tape It Dip it or Brush it

Brush on Insulation

Performix Liquid Tape Insulation Coating is being used on electrical connections everywhere. From speaker cables to circuit boards; automotive projects to toggle switches; extension cords to underground wiring; terminal blocks to underwater aquarium pumps.

Liquid Tape is a rubber insulation coating that exhibits excellent acid, alkaline, abrasion protection and seals out moisture and salt permanently. Liquid Tape has the strongest dielectric protection on the market; 1,200 v/mil, 5-7 mils per coat. Liquid Tape will not harden, unravel or become brittle in extreme weather conditions.

Trouble Free – won't unravel like tape. Seals out moisture, salt permanently.

Easy to apply – Convenient applicator brush in cap.

Flexible Rubber Formula – won't crack, peel or harden.

Available in Black or Red.
