

# MODEL 200

The Model 200 NH bottom feed single action, internal mix airbrush offers the ease of single action operation while providing the fine spray pattern of internal mix paint atomization for professional results. The Model 200 NH will sprays inks, dyes, watercolors, gouaches, properly reduced acrylics, fabric paints, model paints, automotive lacquers and enamels, most ceramic stains and glazes, all of Badger airbrush ready paints. The simplicity of the Model 200 NH makes this the top choice for the advanced model painter or decorative stenciler. Also excellent air brush for painting posters, auto detailing and ceramics.

## **Features (200 NH Bottom Feed)**

Choice of  $\frac{3}{4}$  oz., 2 oz., or 3 oz. paint jars, and  $\frac{1}{4}$  oz. free-standing color cup.

Color cup and one-piece jar adaptor taper-fit for quick color change.

Self – lubricating needle bearing enables continuous proper paint flow and prevents needle wear. Single needle / Tip design

Head seal assures efficient air flow.

Non-slip, one-piece trigger.

Regulate the pre-set amount of color by turning a needle adjustment screw at the back of the air brush handle. Once the desired paint flow is set the air brush will maintain the preset spray until the user chooses to change it.

The 200 NH will spray a pencil line to 2" spray pattern.
