

MODEL 260-ABRASIVE

The Model 260 Hobby Abrasive Gun creates an endless variety of effects in glass etching, or cuts monograms in wood or metal. The 260 can also prep wood, plastic, and metal surfaces and curves, hard to reach areas for refinishers. Realistic weathering effects are easily achieved using this gun. The Model 260 will handle 220 grit or finer abrasive materials

Features (260 Abrasive Gun)

Made of high-impact delrin and precision metal parts.

The tip is made of hardened steel.

Will handle 220 grit or finer abrasive materials.

Abrasive Sprayer Set

Etch metal, wood and glass. Removes old paint and rust. The mini sandblaster sprayer is an indispesale tool that provides professional results quick and easily.

Badger Model 260-3

Set contains a hobby abrasive gun with attatched 4oz.(120ml) jar, air hose, propel™ regulator, and 12 oz. (340g) net weight jar of aluminum oxide, plus dust mask.

Badger Model 260-1

This set is the same as the 260-3, excluding the propel™ can and regulator.
