CHARACTER-BUILDING

A new golden age of character kits is here, highlighted by long-awaited styrene models based on BATMAN THE CLASSIC TV SERIES! GENERAL ZOD and SUPERMAN, fresh from the hit MAN OF STEEL, duke it out in a senses-shattering battle-royale in the skies above METROPOLIS and beyond. HERMAN and GRANDPA MUNSTER feature startling likenesses and extraordinarily detailed diorama settings. More destruction and mayhem are on the way

with MARS ATTACKS MARTIAN WARRIOR. Not to be overlooked is an all-new, 1:6-scale kit of ROBOT B-9 from LOST IN SPACE, models based on the hit DARK KNIGHT TRILOGY and newly-tooled kits of the GALACTICA, CYLON RAIDER and COLONIAL VIPER from CLASSIC BATTLESTAR GALACTICA. Last, but not least, from the delightfully warped mind of VON FRANCO, STONED HOODS & CROOKS serves up twisted, hyped-up hot-rod mayhem!
