
.18 CV-R power comes to boats!

- Provides boat racers with the same big-bore (6.5mm) power of the 11J slide-valve carb as found on the .18 CV-R for cars!
- Delivers 11% more winning performance than a .15, yet mounts in the same space.
- Available with or without an easy-operating pull starter.
- A great upgrade from .15-sized engines for Ready-To-Run boat models.
