Hobby & Model Importers & Distributors Since 1975

*Satellite City*  
**HOT STUFF**  
*'Stick with the winning formula'*

**TIME FOR  
CHANGE**

Pump bottle accelerators will soon no longer be available.

**NCF Quick** is the new all in one accelerator  
that out performs the others on every count!!!

# Satellite City HOT STUFF

*'Stick with the winning formula'*

**Satellite's NCF Quick will revolutionise the way you use CA adhesive.**

Remember, it was Satellite City who pioneered the development of CA adhesives. Back in the early 70's they were a team of dedicated aeromodellers competing in free flight competitions across the US. In their quest for perfection they formulated an adhesive specifically for their needs that was light weight and rapid cure. They literally stumbled across a formulation that would help earn them countless awards and break every free flight record they challenged.

They keenly shared their discovery with fellow modellers and it soon became obvious, with the increasing demand, a more serious means of production would be required. Soon hobbyists nation wide were discovering Hot Stuff's extraordinary characteristics.

It performed so well, inevitably, modellers started testing it at work for it's industrial suitability. Once again it performed superbly.

The images alongside reflect how vast & varied the applications of Satellite CA have become.

## From the corner of a Miramar workshop to the pocket of every US Army medic.

And now 35 years on from the Original Hot Stuff and the innovations of accelerators and foam friendly variants.

**Satellite City has developed 'NCF Quick'**

This will replace NCF Hot & Mild & Spray & Cure pump bottle accelerators.

## **'NCF Quick' can be used with any CA adhesive, and with it you can do almost magical things.**

NCF Quick works in three ways to make CA adhesive EASIER, FASTER & STRONGER

**STRONGER** - because it cleans the surface of the oils that can be found on almost anything, due to handling or oils which are deposited naturally from the air which weaken a bond.

To help you and your customers realise the full potential of NCF Quick & make the change

We are offering 'NCF Quick' at an exceptional price.

For a limited time until the end of February '06

# Satellite City HOT STUFF

'Stick with the winning formula'

## "HOT STUFF" original

Thin consistency 3-5 second bond.

For bonding well fitting parts, glassing & finishing

HS-1	14grams
HS-4	57grams
HS-7	28grams
HS-8	113grams

## "SUPER T" gap filling

Thick consistency 10-25 second bond.

For bonding parts with a poor fit & porous materials.

HST-1	14grams
HST-4	57grams
HST-7	28grams
HST-8	113grams

## "UFO"

Thin consistency 7-15 second bond.

For bonding well fitting parts, glassing & finishing.

**Foam friendly** -perfect for glassing over foam

**User friendly** -no odour, no fumes

UFO-7	28grams
UFO-4	57grams

## "UFO-T"

Thick consistency 50-60 second bond.

For bonding parts with a poor fit & porous materials

**Foam friendly** -perfect for bonding foam.

**User friendly** -no odour, no fumes.

UFO-7T	28grams
UFO-4T	57grams

## "NCF accelerator" ( to be superseded by NCF Quick )

CA accelerator pump, mild & hot formula, 8 min on-part life

Dries instantly, no waiting, non CFC

Hot formula is an extremely fast acting accelerator

NCF-2M	<b>SOLD OUT</b>	mild
NCF-2	<b>SOLD OUT</b>	hot
NCF-18M	511grams	mild

## "NCF QUICK" accelerator

Aerosol formula, accelerator for any CA glue, 8 min on-part life

Dries instantly, no waiting, non CFC, economical

no drips, no evaporation from can, no expiry

Comes with straw applicator for those intricate applications

Easier, Faster, Stronger bond

QA-6	170grams
------	----------

## "ULTRA SOLVENT"

Fantastic de-bonding & cleaning-up agent

US-1	57grams
------	---------
